The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietor has so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Difference in Drug Buying

"GOODS WELL BOUGHT ARE HALF SOLD"

We are careful buyers, always insisting upon quality—and when goods are received they are stocked in a way which guards against deterioration.

You should form the habit of careful drug buying. If all buyers would form such a habit, there would be no further market for impure, impotent drugs.

Only pure, high-grade drugs are to be found in our stock—goods which we can sell under a strict guarantee.

RARE BOOKS TO BE SOLD AT AUCTION

By United Press.
New York, April 24.—The rare collections of Thackeray and Dickens first editions, owned by Stanley Kidder Wilson of Philadelphia and Edwin W. Coggeshall, will be auctioned at Madison avenue and Fortieth street here, beginning today. Collectors from several American cities are expected to bid against each other for the books, which are valued at thousands of dollars.

This afternoon and evening the collection of Wilson of Philadelphia, illustrated by John Leech, will be offered together with original drawings by Leech. On the afternoons of April 25, 26 and 27 the famous Dickens and Thackeray collections and miscellaneous books of Edwin W. Coggeshall will be sold.

Trackeray called John Leech "his best friend."

Included in the first half of the collection are books illustrated by Leech. Among these are the scarce first editions of the "Ingoldsby Legends," with an autograph letter by the author; Bentley's "Miscellany," the first thirty-eight volumes, with many of the most famous illustrations by Leech and Cruikshank.

In the second session of the sale is "The Race for the Derby," the finest and largest Leech water color in existence. "Pickwick Papers," in the original green pictorial wrappers, all dated 1836, is one of the finest items of the collection. There is also a page of the original manuscript, of which only thirty pages are known to exist. "Vanity Fair" is in the original parts with Thackeray's original drawing in color of Becky Sharp, and a fine autograph letter.

Among other items are Dickens' own copy of Dr. Johnson's Dictionary, his copy of George Eliot's first book and many other items of especial interest.

In the miscellany offered for sale is an armchair used by President Lincoln in the White House, and first editions of more than twenty-five distinguished authors.

The highest spot cash price will be paid for some clean cotton rags delivered at once to the Daily Express office. 3-311f
